Fel som upptäcktes

1. Några rubriker på webbplatsen har inkonsekvent ordning.

Åtgärdat sedan förra rapport

1. Tabb-placering flyttas inte vid klick på ankarelänk, utan fortsätter från samma position innan klick, dvs. markören kan kvarstå utanför visningsfönstret, och fönstret sedan hoppar tillbaka vid nästa tabbning.
2. Vissa autogenererade, klickbara element (som biljettköpknappar) bode ha ARIA-attribut som tydligare särskiljer dem från andra liknande element på sidan.
3. Ett par angränsande ankarelänkar leder till samma ställe, och borde slås ihop till en länk.
4. Ett fält i nyhetsbrevsformuläret saknar en label.
5. Elementet för att tömma sökfältet på sökresultatssidan har en touch-yta på 20x20px. Den ska vara 24x24px eller större enligt standarden.
